Dear colleagues,

"Educate. Advocate. Act now", this year's theme for World Antimicrobial Resistance (AMR) Awareness Week (WAAW) 2024, calls on the global community to educate the stakeholders on AMR, advocate for bold commitments and take concrete actions in response to AMR. Drug-resistant-pathogens pose a threat to everyone, everywhere.

The solution lies in preserving the effectiveness of the drugs presently available by antimicrobial stewardship and also to maximize the Hospital Infection Control practices in order to limit the spread of resistance. We bring together experts in the field to discuss various aspects of antibiotic resistance & antimicrobial stewardship.

Looking forward to your active participation.

Organising Committee

Organising Chairperson

Dr Mohammed Hisham PP
Prof. & HOD,
Dept of Microbiology
Ph: 9037818132

Organising Secretary

Dr Sharanya Kaniambady
Assistant Professor
